

## Part 1: Installing Xming X11 on Windows

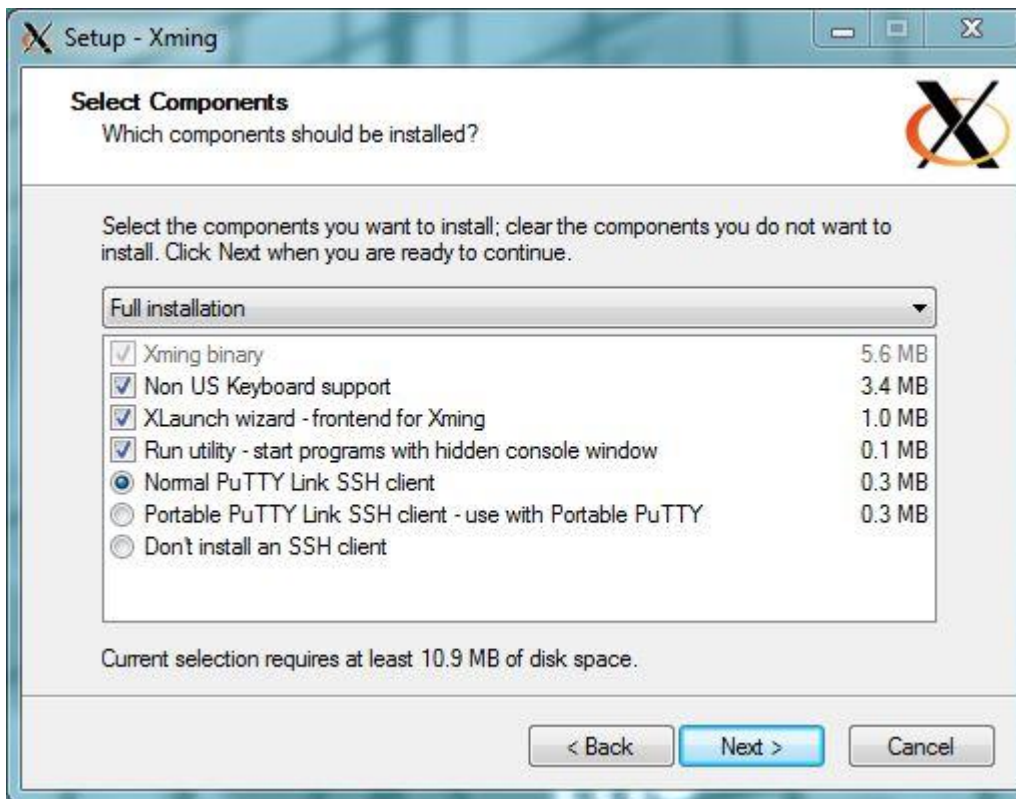

1. Download the Xming setup executable available at the SourceForge page for Xming.
2. Click **Next**.

3. Click **Next**.

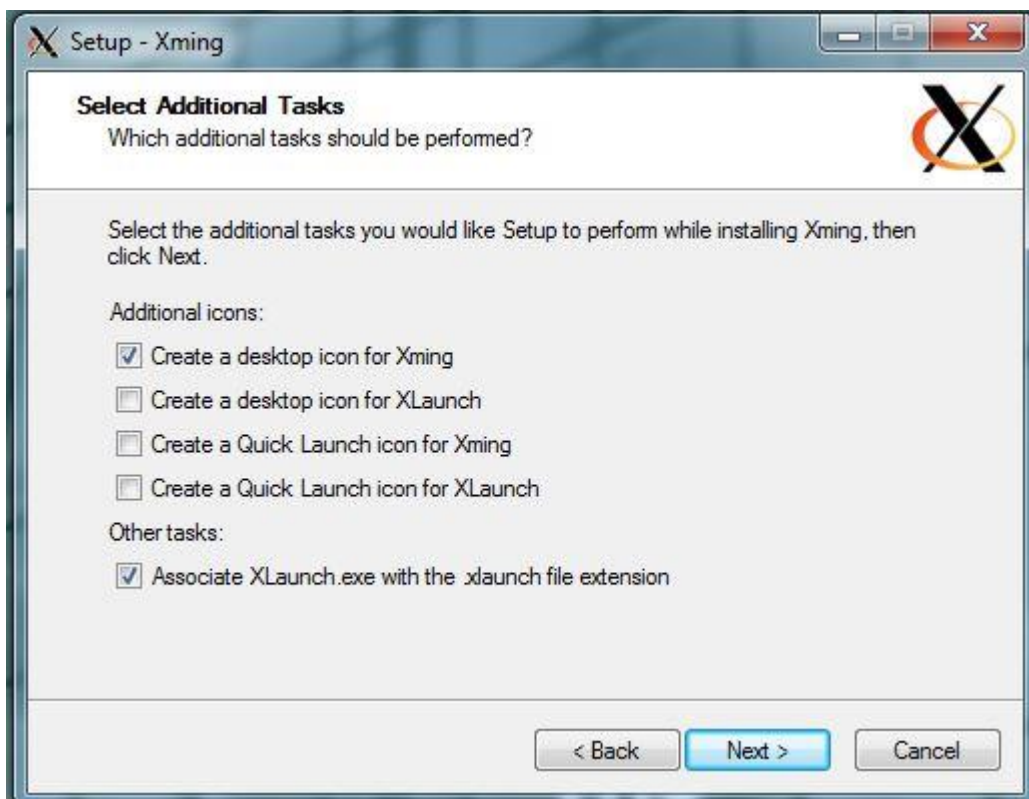

4. Click **Next**.

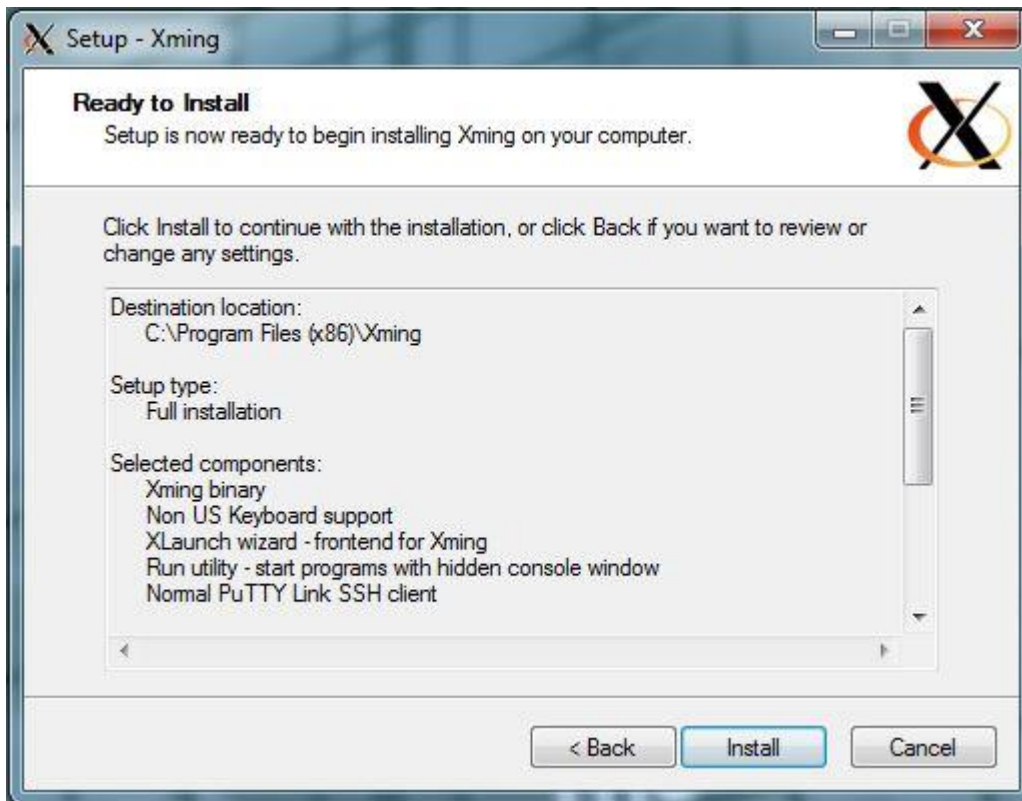

5. Click **Next**.

6. Select the checkbox next to *Create a desktop icon for Xming*, then click **Next**.

7. Click **Install**.

8. Click **Finish**.

9. You will see Xming icon in your taskbar when it is running. You are now ready to use X11-based applications.
